Digital Portfolio Overview

Name: Yamya Verma
Registration Number: 25BAI10652
Program: B.Tech CSE (Artificial Intelligence and Machine Learning)
Year: 1st Year
Institution: VIT Bhopal University

Professional Platform Reflection

For building my professional digital presence, I chose GitHub, LinkedIn, and Kaggle. GitHub is widely used by developers to showcase projects, collaborate on code, and maintain version control.
I plan to regularly upload my academic projects, coding assignments, and AI/ML experiments here, which will
help me build a strong technical portfolio over time.

LinkedIn is a professional networking platform where students and professionals connect, share achievements,
and explore opportunities. I have updated my education details and will continue to add certifications,
internships, and accomplishments. Over the next four years, I aim to build meaningful connections with peers,
mentors, and recruiters.

Kaggle is a platform for data science and machine learning enthusiasts where users can participate in
competitions, work on datasets, and learn from the community. I plan to practice real-world problem solving
on Kaggle and improve my data analysis and machine learning skills.

Overall, these platforms will help me grow academically, showcase my skills, and prepare for future
internships and job opportunities.
